## A PASSION FOR GARDEN

**PLANT PROTECTION • WEED CONTROL • CLEANING**

## 75 YEARS OF SPRAYING

For its anniversary, GLORIA shows that it should still not be put on the scrap heap. The **Hydronette** fine sprayer was once one of the most popular GLORIA sprayers.

In a new design, made of high-quality cork and brass and with an integrated rechargeable battery, the new edition of the classic is the ideal birthday present. Because, as we all know, the best gifts are the ones you like to keep for yourself.

[Page 12](#)

## NEW PRODUCTS

## SOFT SPRAYER

The new **GLORIA prima 60** is the handy soft sprayer for watering seedlings and plants in cultivation. With the integrated 3-in-1 nozzle delicate plants can be watered and sprayed very gently or treated with a spot spray, preventing them from being flooded due to excessive amounts of water.

The soft pressure bottle holds 600 ml and fits perfectly in the hand.

[Page 11](#)

## 18 V BATTERY POWER ON THE BACK!

An automatic pressure build-up and over five hours of running time (18 V, 2.5 Ah battery) with an output volume of 180 l. Sounds good? Sounds like the **GLORIA Pro 1200 li-on**, the new battery-powered knapsack sprayer for large-scale applications of plant protection products in the commercial sector, among others.

[Page 29](#)

## HANDY, COMPACT, DURABLE

For the new gardening season, GLORIA offers the hard-wearing hand sprayer **Hobby 125 PLUS**. Equipped with acid-resistant EPDM seals and a plastic spray lance and nozzle, the device is ideal for applying acidic pesticides to smaller garden areas or the balcony. In addition, the sprayer is resistant to acetic acid (up to 10 %).

# FOR EXPLANATION – OUR ICONS

	Transparent viewing strip for fill level control		LED function		Double-acting precision pump
	360° spray function		Plastic spray lance		With filler sieve
	No manual pumping necessary		Brass spray lance and nozzle		With spiral hose (e.g. 2.5 m)
	No manual pumping necessary		Brass pump		Very comfortable to carry
	Automatic pressure generation		Steplessly extendable telescopic tube (e.g. from 0.58 – 1.0 m)		Stable foot ring
	Swivel nozzle		With extension tube (e.g. 50 cm)		Residual drainage
	Swivel nozzle head		With extension lance (e.g. 40 cm)		With compression fitting

## WEBSITE

The GLORIA website offers you everything you need to know about the GLORIA product range. Videos, a clear product comparison or technical information will help you with your purchase decision. Whether via PC or mobile phone, just take a look inside.

Or are you looking for a spare part? You are sure to find what you are looking for in the GLORIA online shop.

The screenshot shows the product page for the 'prima 5 Comfort' pressure sprayer. The page includes a large image of a woman using the sprayer on a lawn, the product name 'prima 5 Comfort', and a 'Product information' section with a detailed description and a 'Technical details' section with a table of specifications.

## GLORIA QUALITY

### MORE THAN JUST A WORD

The GLORIA product range is based on 75 years of tradition and experience. The needs of our customers have always been at the centre of the development of new and innovative products. The result: reliable and powerful gardening units that set standards in terms of user-friendliness, ergonomics and quality.

In the manufacturing process of our products, only high-quality materials are used, of whose quality we are sustainably delighted. The manufacturing conditions are characterised by state-of-the-art technical equipment, experienced production staff and regular quality controls. Steel and stainless steel sprayers are also manufactured exclusively in Germany.

Made in Germany is still synonymous with compliance with the highest quality standards in our company. GLORIA products are manufactured in accordance with the ISO 9001 quality standard. This means a permanently consistent quality of our products and services. Numerous awards from independent institutions attest to the excellent safety level, conformity with valid directives, and the exemplary design of our products.

To ensure that our customers can also benefit from the quality of GLORIA equipment in the long term, GLORIA offers a 10-year guarantee on spare parts availability for all products in our range.

## 75 YEARS OF GLORIA – THE ORIGINAL

This number makes me very proud. For three quarters of a century, we have been providing you with innovative products and problem solvers. Our sprayers are known far beyond the country's borders as quality products that often provide faithful service for generations. For this, I would like to thank all our customers from the bottom of my heart.

The house and the garden have been rediscovered or even completely new discovered in the last two years as a place of retreat and security where we can recharge our batteries and relax. The garden has become a source of energy and a holiday place that you want to make as beautiful as possible. You can sit back, relax and enjoy the fruits of gardening.

To ensure that the care of your personal paradise is not a burden but a pleasure, we provide you with valuable helpers in the form of GLORIA spraying and gardening tools. A high-quality standard, uncomplicated handling and a timeless modern design make GLORIA tools popular gardening helpers all over the world.

At GLORIA, we have been striving for 75 years to achieve the highest level of innovation and to use the latest technologies in our product

development to provide you with convenient products. Our MultiJet system is an excellent example of this. Three mobile high-performance spraying systems on a battery and electric basis, which can be used for cleaning, watering, foaming, brushing and plant care. A unique product range in the industry.

In our anniversary year, we would also like to inspire you with a wealth of new products. Our anniversary product, the Hydronette li-on battery-operated fine sprayer, is a visual highlight and a symbiosis of gardening tool and design object. Other new products are our handy soft sprayer prima 60 or the compact battery knapsack sprayer Pro 1200 li-on with BOSCH battery power.

In the catalogue we present all new products in detail. Have fun and good luck with your gardening.

I WISH YOU ALL THE BEST,  
STAY HEALTHY!

Your Markus Kress

**PLANT PROTECTION & CARE**

# COMPACT AND PRACTICAL!

The GLORIA fine sprayers and hand sprayers with a filling capacity of 0.3 to 1.25 l are characterised by ergonomic operation, high efficiency when spraying, as well as high-quality workmanship, and are ideal for the care and protection of your plants in the house, on your balcony, or your terrace.

The highlight among the sprayers is the new battery-operated fine sprayer **Hydronette li-on**, which has a great feel and look and combines a work tool and design object in one. Just as with many other GLORIA sprayers (Hobby 05/10/125 FLEX), the Hydronette li-on can be used from any position thanks to its integrated 360° spraying function. This is ideal if you also need to treat the undersides of your plants' leaves.

The two fine sprayers **Hobby 05 FLEX** and **Hobby 10 FLEX** are equipped with a double-acting precision pump. With one pumping motion, you can produce two powerful sprays with the 0.5 or 1.0 l sprayers. All GLORIA fine sprayers are equipped with an infinitely adjustable nozzle and a viewing strip for checking the fill level

With 1.0 L or 1.25 l filling capacity, the **Hobby 100** and **Hobby 125 FLEX** offer plenty of volume and thus ensure long working intervals. Both units can be pumped up to a maximum of 3 bar operating pressure and guarantee an excellent spray pattern for plant care.

## FINE ATOMISER TYPE 208

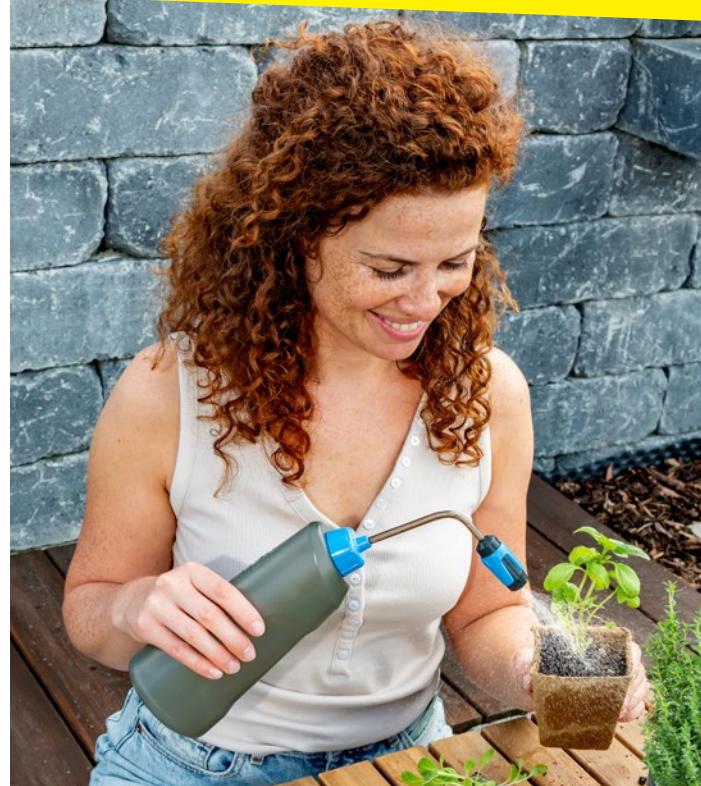

- Fine atomising
- Ideal for caring for sensitive house plants

0,3 l

- Filling capacity 0.3 l / total volume 0.3 l
- Plastic container
- Plastic-piston tube
- Unscrewable spraying agent container
- Mist-like atomisation for use in greenhouses as well as for the care of house plants, orchids and roses

Item No: 000208.0000

## GENTLE WATERING FOR SMALL PLANTS AND SEEDLINGS

## SOFT SPRAYER PRIMA 60

- For gentle care of seedlings and plants in cultivation

0,6 l

- Filling capacity 0.6 l / total volume 0.6 l
- Integrated 3-in-1 nozzle: Fine jet/pour/spray jet
- Soft pressure bottle with angled spray lance
- Compact design

Item No: 000840.0000

3-IN-1 NOZZLE

EXTRA CAPACITY

# WHEN DESIGN MEETS FUNCTION

For its 75th anniversary, GLORIA is relaunching its bestseller from the 70s. The 1 l **Hydronette li-on** is easy to operate at the touch of a button, fits perfectly in the hand and is ideal for applying water and plant protection products. An infinitely adjustable and swivelling nozzle as well as a 360° spray function ensure maximum flexibility for plant care.

Thanks to an integrated battery, the product can be used for up to 5 hours at a stretch. The device is charged with any USB-C charging cable.

The sprayer is a visual highlight and a symbiosis of gardening tool and design object.

## FINE SPRAYER **HYDRONETTE LI-ON**

- Battery-operated fine sprayer with integrated lithium-ion battery + USB-C charging function
- Extremely long running time of up to 5 hours or 34 litres

- Filling capacity 1.0 l / total volume 1.0 l
- High-quality feel thanks to cork and brass elements
- Swivelling and adjustable brass nozzle, e.g. for spraying the undersides of leaves
- Integrated intake filter
- Ergonomic handle
- Mist-like atomisation

Item No: 000960.0000

**NEW**

## FINE SPRAYER HOBBY 05 FLEX

- Double-acting precision pump:  
1 x pump = 2 x spraying
- 360° spray function thanks to flexible riser tube

- Filling capacity 0.5 l / total volume 0.6 l
- Sturdy plastic container
- Infinitely adjustable nozzle with brass insert and grip structure
- Ergonomically shaped pistol grip
- High stability thanks to inwardly curved, flat base
- Transparent viewing strip for fill level control

Item No: 000850.0000

## FINE SPRAYER HOBBY 10 FLEX

- Double-acting precision pump:  
1 x pump = 2 x spraying
- 360° spray function thanks to flexible riser tube

- Filling capacity 1.0 l / total volume 1.1 l
- Sturdy plastic container
- Infinitely adjustable nozzle with brass insert and grip structure
- Ergonomically shaped pistol grip
- High stability thanks to inwardly curved, flat base
- Transparent viewing strip for fill level control

Item No: 000860.0000

## PROPERLY CARE FOR HOUSE PLANTS

All house plants absorb water not only through their roots in the soil, but also directly through their leaves.

Most house plants originate from climates with significantly more humidity and are specialised in using the moisture contained in the air. Some are even almost exclusively dependent on it, such as orchids.

In our latitudes, on the other hand, the climate is one of low humidity. To compensate for this deficiency, indoor plants should be sprayed regularly – especially in winter.

# THEY REALLY PUT THE PRESSURE ON!

Our pressure sprayers with a capacity of 3 – 8 l and containers made of durable plastic are excellent for the care and protection of the flowers and plants in your garden. Thanks to practical extension lances or an integrated spiral hose, you can even effortlessly treat smaller trees and tall shrubs with the GLORIA sprayers.

Each GLORIA unit is equipped with a precision pump and allows a maximum operating pressure of 3 bar. A practical carrying strap also comes standard. We also offer you a variety of different equipment options so that you can find exactly the unit you need.

Thanks to their flexibility and variety, the sprayers are also suitable for use in the greenhouse or the plant nursery.

## QUALITY IN THE DETAILS

**Safety and relief valve**  
Opens automatically in the event of overpressure and protects the sprayer from an impermissible increase in pressure.

## PLANT PROTECTION THE RIGHT WAY

- Apply the plant protection medium in the morning or evening to avoid burning the plant due to sunlight.
- Do not spray when the wind is too strong, otherwise the spray will drift away too much, or use a spray shield (page 52).
- After treatment, do not water the plant for a few hours so that the product can take effect.
- Do not mix the plant protection products too liberally.
- Always follow the manufacturer's instructions on the packaging before application.

## PRESSURE SPRAYER PRIMA 3

- Handy and compact
- Ideal for small gardens

- Filling capacity 3.0 l / total volume 5.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Brass spray lance with adjustable brass hollow cone nozzle
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Wearable on the shoulder

Item No: 000078.0000

## BATTERY POWER!

Automatic pressure build-up instead of manual pumping – simply equip your sprayer with our new battery compressor and save your energy. Simply screw it in, click on the Bosch 18 V battery and your sprayer is always supplied with the appropriate operating pressure.

More on that: Page 23

### PRESSURE SPRAYER PRIMA 5

- The classic among sprayers
- Ideal for use in small – large gardens

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Brass spray lance with adjustable brass hollow cone nozzle
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Wearable on the shoulder

Item No: 000080.0000

### PRESSURE SPRAYER PRIMA 5 PLUS

- Resistant to acetic acid
- For the application of acidic pesticides

- Acid-resistant EPDM seals
- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Plastic spray lance with adjustable plastic nozzle
- Plastic extension tube (length 0.5 m)
- Fabric-reinforced double-layer hose
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Wearable on the shoulder

Item No: 000106.0000

### PRESSURE SPRAYER PRIMA 5 COMFORT

- More reach thanks to a spiral hose (length 2.5 m)
- Compressor connection

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Brass spray lance with adjustable brass hollow cone nozzle
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Wearable on the shoulder

Item No: 000091.0000

## PRESSURE SPRAYER PRIMEX 5

- Brass extension tube (length 0.5 m)
- Compression fitting

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Brass spray lance with adjustable brass hollow cone nozzle
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Base ring for secure standing
- Wearable on the shoulder

Item No: 000083.0000

## PRESSURE SPRAYER PRIMA 8

- Extra large filling capacity
- Residual drainage

- Filling capacity 8.0 l / total volume 12.2 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Brass spray lance with adjustable brass hollow cone nozzle
- Powerful pressure pump
- Transparent viewing strip for fill level control
- Base ring for secure standing
- Wearable on the shoulder

Item No: 000099.0000

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Powerful pressure pump
- Ergonomic comfort handle
- Kink protector for the hose
- Base ring for secure standing
- Transparent viewing strip for fill level control
- Sturdy shoulder strap with shoulder pad, wearable on the shoulder

Item No: 000262.0000

# SPRAYING INSTEAD OF BRUSHING

Our **SPRAY&PAINT sprayers** are ideally suited for the application of sprayable, water-soluble glazes and solvent-free oils. This will give your wooden fence or garden gate a new coat of paint in no time at all.

## GLORIA RECOMMENDS

### Brand products for best work results

Improve your work result with the Spray&Paint units by using GLORIA approved oils and glazes.

- Optimum working result: Even, smooth surfaces without forming droplets and runs
- Time-saving: Fast processing thanks to effective flat-jet nozzle
- Cost-saving: economical consumption, economical operation

You can find an overview of all recommended media under:  
[www.gloria-garten.de/spray-and-paint](http://www.gloria-garten.de/spray-and-paint)

## HAND SPRAYER SPRAY&PAINT COMPACT

- Application of sprayable oils and glazes

- Max. filling capacity 1.25 l / total volume 1.55 l
- Recommended fill capacity 0.75 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Plastic spray lance with flat spray nozzle (65°)
- Powerful pressure pump
- Base ring for secure standing
- Transparent viewing strip for fill level control

Item No: 000355.0000

## PRESSURE SPRAYER SPRAY&PAINT

- Application of sprayable oils and glazes
- 5 l filling capacity for larger surfaces

- Filling capacity 5.0 l / total volume 7.0 l
- Maximum operating pressure 3 bar
- Sturdy plastic container
- Reinforced plastic tube with plastic flat jet nozzle (110°)
- Powerful pressure pump
- Quick-closing valve made of sturdy plastic
- Transparent viewing strip for fill level control
- Wearable on the shoulder

Item No: 000101.0000

## BOX TREE MOTHS FORBIDDEN!

The **270° Plant Protection Set** is ideally suited for controlling pests or fungi in hard-to-reach places such as the underside of leaves.

One example of this is the wide-spread caterpillar of the box tree moth. During treatment, the insecticide applied is evenly distributed to all infested areas in the plant.

### 270° PLANT PROTECTION SET

- 2-in-1 nozzle: cone stream or 270° spraying
- Ideal for treating pests in hard-to-reach places

- Brass nozzle + four circular precision nozzles
- Brass spray lance
- Optimised application of plant protection products – also sprays the undersides of leaves
- Suitable for all garden pressure sprayers from 3 – 18 l
- Adjusting spray jet with actuator (no contact with the medium)

### BATTERY COMPRESSOR FOR SPRAYERS

- Compatible with all BOSCH 18V POWER FOR ALL batteries (battery/charger not included)
- Continuous spraying without manual pumping
- Adjustable operating pressure from 1.5 – 2.5 bar

- Automatically generates the required operating pressure in the unit and regulates it during operation
- Incl. charge status indicator
- Guarantees a continuously optimal spray pattern
- Suitable for all GLORIA plastic foam and pressure sprayers with 3 – 8 litres filling capacity (except types 256, 257)
- Simple assembly: Remove pump, screw in battery compressor, done!

Item No: 000920.0000

# STAINLESS STEEL AND STEEL

The GLORIA high-performance sprayers made of robust steel and stainless steel offer maximum convenience thanks to their extensive equipment and impress through quality and reliability. They are popular aids for use in the garden, in the plant nursery or in agriculture.

A maximum operating pressure of 6 bar allows long working time with a constant application rate at the brass nozzle. In conjunction with suitable extension pipes, a spraying height of up to 6 m can be achieved with the sprayers.

The **405 T** and **410 T** steel sprayers are characterised by their high resistance. Thanks to a high-quality inner coating of plastic, contact of aggressive spraying media with the steel container is avoided. This protects the container material against corrosion and simplifies cleaning of the unit.

The **505 T** and **510 T** units made of stainless steel are also corrosion-resistant and extremely robust against impact and wear.

## HIGH-PERFORMANCE SPRAYER 405 T

- Sheet steel container with inner coating
- Residual drainage

Layered-structure steel tank  
405 T and 410 T

Corrosion resistant  
High-tech internal coating  
405 T and 410 T

## QUALITY MATERIALS STAINLESS STEEL

Stainless steel contains at least 10.5 % chromium and, thanks to a passive layer that acts as a barrier between the alloy and the media surrounding it, is even more resistant to corrosion than sheet steel. This corrosion protection is not impaired even if the surface is damaged.

## QUALITY IN THE DETAILS

# DO YOU NEED MORE?

The GLORIA knapsack sprayers are characterised by a large filling capacity and a considerable reach, long working intervals when applying the desired medium are guaranteed. The areas of application of the knapsack sprayers are extremely variable, the units are used in viticulture, forestry or for plant care in greenhouses and plant nurseries. The robust plastic units have a back-friendly container that adapts to the body and padded shoulder straps, our **Pro model series** additionally has a professional carrying system.

Thanks to numerous equipment options such as a brass spray lance, a quick-closing shut-off valve with integrated pressure gauge or an ergonomically shaped comfort handle with soft insert and an infinitely adjustable pressure regulator, the units are optimally equipped for intensive working intervals.

New in the GLORIA range: the **Pro 1200 li-on**. The battery-powered knapsack sprayer is compatible with any BOSCH 18V POWER FOR ALL 18V rechargeable battery and already the 2.5 Ah battery allows the device to spray for over 5 hours of spraying at a stretch. A constant operating pressure is guaranteed at all times during work.

## EXTRA REACH

The GLORIA piston knapsack sprayers from 13 l are supplied including a 0.5 m extension tube.

In addition to the large filling quantity, this guarantees an advantage in range. This means that even hard-to-reach shrubs or treetops can be treated.

### PISTON KNAPSACK SPRAYER **CLASSIC 1200**

- Ergonomic container

- Filling capacity 12.0 l / total volume 16.5 l
- Maximum operating pressure 4 bar
- Brass spray lance with hollow cone nozzle
- Powerful plastic pump
- Pump lever wearable on left or right side with spraying tube holder
- Precise quick-acting valve
- Base plinths for a safe stand
- Adjustable carrying straps, can be carried as a backpack

Item No: 000065.0000

### PISTON KNAPSACK SPRAYER **CLASSIC 1800**

- With extra filling capacity
- Ergonomic container

- Filling capacity 18.0 l / total volume 23.3 l
- Maximum operating pressure 4 bar
- Brass spray lance with hollow cone nozzle
- Powerful plastic pump
- Pump lever wearable on left or right side with spraying tube holder
- Precise quick-acting valve
- Base plinths for a safe stand
- Adjustable carrying straps, can be carried as a backpack

Item No: 000065.0000

## PISTON KNAPSACK SPRAYER HOBBY 1200

- Ergonomic container
- Infinitely adjustable operating pressure (1 – 3 bar)

- Filling capacity 12.0 l/total volume 16.5 l
- Maximum operating pressure 6 bar
- Brass spray lance with adjustable hollow cone nozzle
- Powerful plastic pump
- Pump lever wearable on left or right side with spraying tube holder
- Comfort quick-closing valve with pressure gauge and softpad insert
- Padded shoulder straps with quick release system, can be carried as a backpack

Item No: 000056.0000

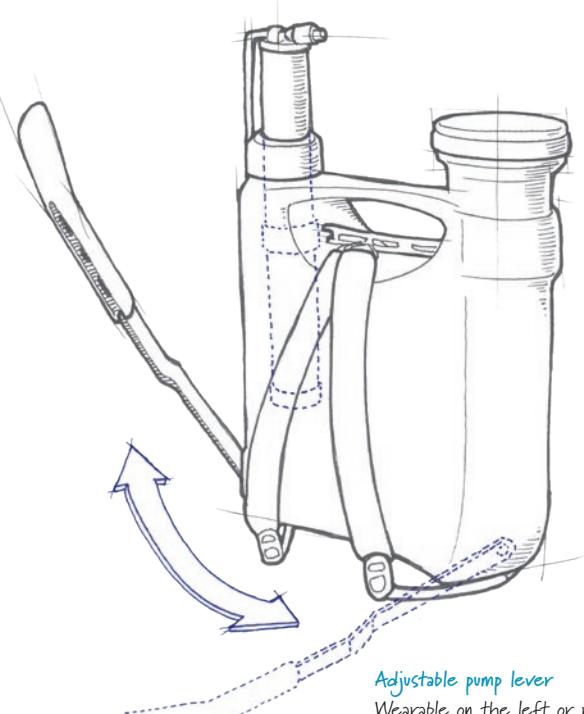

## PISTON KNAPSACK SPRAYER HOBBY 1800

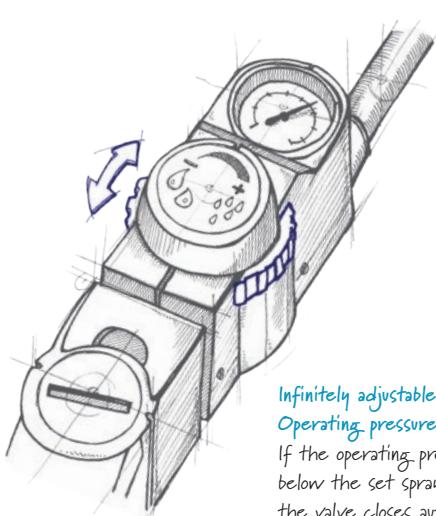

- With extra fill capacity
- Ergonomic container
- Infinitely adjustable operating pressure (1 – 3 bar)

- Filling capacity 18.0 l/total volume 23.3 l
- Maximum operating pressure 6 bar
- Brass spray lance with adjustable hollow cone nozzle
- Powerful plastic pump
- Pump lever wearable on left or right side with spraying tube holder
- Comfort quick-closing valve with pressure gauge and Softpad insert
- Padded shoulder straps with quick release system and lap belt, can be carried as a backpack
- Brass extension tube (length 0.5 m)

Item No: 000060.0000

**Adjustable pump lever**  
Wearable on the left or right with spray tube holder.  
All piston knapsack sprayers

**Infinitely adjustable  
Operating pressure (1 – 3 bar)**  
If the operating pressure falls below the set spraying pressure, the valve closes automatically – a constant volume flow is guaranteed.  
All piston knapsack sprayers,  
High-performance sprayers 410 T and 510 T

**QUALITY IN THE DETAILS**

## PISTON KNAPSACK SPRAYERS PRO 1300

- Profi-carry system, can be carried as a backpack
- Infinitely adjustable operating pressure (1 – 3 bar)

- Filling capacity 13.0 l / total volume 16.5 l
- Maximum operating pressure 6 bar
- Brass spray lance with adjustable hollow cone nozzle
- Pump lever wearable on left or right side with spraying tube holder
- Comfort quick-closing valve with pressure gauge and Softpad insert
- Brass extension tube (length 0.5 m)

Item No: 000058.0000

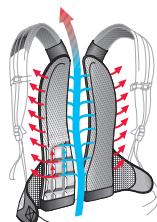

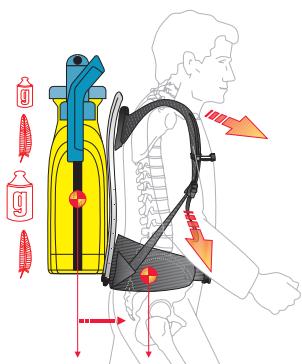

## UNPARALLELED WEARING COMFORT: PRO 1300 + 1800

S-shaped carrying straps, perfectly adapted to the body

Ergonomically designed back cushion, supports and protects the body

Sternum strap fixes the risers, provides support and stability

Hip belt fixes the load on the hip, maximum comfort for fatigue-free work (Pro 1800)

Highly efficient ventilation system

# 18 V BATTERY POWER ON THE BACK!

An automatic pressure build-up and over five hours of running time (18 V, 2.5 Ah battery) with an output volume of 180 l. Sounds good? Sounds like the GLORIA Pro 1200 li-on, the new battery-powered knapsack sprayer for large-scale applications of plant protection products in the commercial sector, among others.

Compatible with any Bosch 18V POWER FOR ALL rechargeable battery, the knapsack sprayer lies comfortably on the back thanks to the ergonomically shaped back contour and the comfort strap system, making it ideal for long working intervals. A hollow cone and flat spray nozzle make the Pro 1200 li-on ready for use for plant protection and weed control.

**CLEANING, WATERING,  
FOAMING, SPRAYING, BRUSHING**

# MULTIJET SYSTEM

CLEANING • WATERING • FOAMING • SPRAYING • BRUSHING

- **BATTERY OR ELECTRICAL**
- **MULTIFUNCTIONAL** – NUMEROUS ACCESSORIES
- **FLEXIBLE** – THREE PRESSURE LEVELS
- **DRAWS LIQUID** FROM ANY SOURCE

The garden furniture is dirty, the car is in urgent need of a wash, the mountain bike is filthy after the tour in the mountains and the plants in the home garden are in urgent need of a little care. Sounds like a lot of work and a lot of equipment. **With GLORIA, you can do all this with a single device: MultiJet, because everyone needs one!**

The MultiJet high-performance spraying systems can clean, foam, brush, water and are also suitable for the application of plant protection products. And all this without a water connection. The products draw liquid from any source, whether it's the water supply in your garden or

the lake or a bucket on the way. Even a standard PET bottle can be clicked on (MultiJet 18V).

You have the choice between two handy battery devices (MultiJet 18V and 36V) and an electric version (MultiJet 230V), according to your needs. Depending on the model, the units work with a maximum operating pressure of 24.9 – 120 bar, which can be adjusted in three stages, so that you can powerfully remove dirt as well as apply plant protection products with a single unit. The numerous accessories naturally fit all three units.

## YOUR MUST-HAVE!

### 18V – BOSCH BATTERY POWER

The MultiJet 18V is compatible with every BOSCH 18V POWER FOR ALL battery and cleans sometimes gently and sometimes powerfully thanks to the multifunction nozzle and adjustable operating pressure. The unit draws liquid from any source. Practical accessories let the MultiJet 18V spray, foam, brush or apply plant protection products.

### 36V – YOU NEED MORE?

With up to 70 bar max. pumping power, the MultiJet 36V cleans, foams and sprays. A 36 V/4.0 Ah battery provides sufficient runtime. Its handy size makes this lightweight the ideal aid. Whether cleaning, caring for plants or after a bike ride: put the suction hose in a bucket, lake or on the tap, select the pressure level and off you go.

### 230V – WITH HIGH PRESSURE!

The MultiJet 230V really puts the pressure on. With a max. pumping power of 120 bar, even the most stubborn dirt around the house will give way. The high-pressure cleaner will impress with numerous features. An adjustable operating pressure and a multifunction nozzle make the unit maximally flexible. All accessory options can also be used for the 230 V unit.

CLEANING +  
WATERING

## MULTIJET 18V

- Compatible with all BOSCH 18V POWER FOR ALL batteries (battery/charger not included)
- Three adjustable pressure levels (Spray, Eco, Clean)
- Draws liquid from any source

- Battery high-performance spraying system

- Max. pumping capacity 24.9 bar
- Max. flow rate 240 l/h
- Running time (BOSCH 18V, 2.5/4.0 Ah):  
2.5 bar: 80/140 min – 15 bar: 17/27 min – 24.9 bar: 11/18 min
- 4-in-1 multifunction nozzle  
(point/flat jet nozzle, turbo rotor nozzle, sprinkler)
- Incl. 40 cm extension lance
- Integrated battery charge indicator
- 5 m suction hose (3/8") incl. dirt filter
- Adapter for connection to PET bottle

Item No: 000300.0000

CLEANING +  
WATERING

## MULTIJET 36V

- Powerful 36 V/4.0 Ah battery (integrated)
- Three adjustable pressure levels (Spray, Eco, Clean)
- Draws liquid from any source

- Battery high-performance spraying system

- Max. pumping capacity 70 bar
- Max. flow rate 250 l/h
- Running time: 5 bar: 75 min – 25 bar: 34 min – 70 bar: 18 min
- 4-in-1 multifunction nozzle  
(point/flat jet nozzle 15° und 60°, turbo rotor nozzle)
- Shower attachment
- Incl. 75 cm lance
- Integrated battery charge indicator
- Incl. quick charger (60 min = 75%, 90 min = 100%)
- 5 m suction hose (3/8") incl. dirt filter
- 4 m pressure hose

Item No: 000320.0000

CLEANING +  
WATERING**MULTIJET 230V**

- Motor 230 V, power 1,500 W
- Three adjustable pressure levels (Spray, Eco, Clean)
- Draws liquid from any source

- Electric high pressure spraying system
- Max. pumping capacity 120 bar
- Max. flow rate 360 l/h
- 4-in-1 multifunction nozzle (point/flat jet nozzle 15° und 60°, turbo rotor nozzle)
- Shower attachment
- Incl. 75 cm lance
- 6 m suction hose (1/2") incl. dirt filter
- 4 m pressure hose
- 5 m electric cable

Item No: 000330.0000

**MULTIFUNCTIONAL + FLEXIBEL**

From the application of pesticides to mechanical cleaning with a nylon brush to foam cleaning of cars or bicycles – thanks to numerous accessories, the MultiJet units are true multi-talents.

The devices draw liquid from any source. No matter whether it is the permanent water connection in the garden at home, a bucket or the lake, the MultiJet spraying systems can be used whenever they are needed.

Practical: a standard PET bottle can even be clicked onto the MultiJet 18V – great when the bike needs a quick rinse after a tour.

# ACCESSORIES – SUITABLE FOR ALL MULTIJET UNITS

## FOAM SET

- Turns detergent into cleaning foam

- Foam nozzle with flat jet
- Fill capacity 0.45 l
- Adjustable proportioning rate on the container

Item No: 729120.0000

## PLANT PROTECTION SET

- For the application of plant protection products

- 3 individual hollow brass cone nozzles suitable for each unit of the MultiJet system
- Incl. pressure relief valve
- Robust 40 cm brass spray lance (for MultiJet 18V)

Item No: 729165.0000

## BRUSH SET

- Brush attachment for cleaning/care of various surfaces

- Incl. 40 cm extension lance and 180 mm wide nylon brush
- Integrated flat jet nozzle for the application of cleaning agents or water

Item No: 729122.0000

## UNIVERSAL CONTAINER

- Ideal for transporting water, cleaning agents or pesticides

- Filling capacity 10.0 l
- Incl. 1.5 m suction hose (3/8“)
- Shoulder strap, wearable on the shoulder

Item No: 729164.0000

# SURFACE CLEANING & CARE

## BRUSHSYSTEM

With the BrushSystem battery and electric brushes, GLORIA provides you with four practical devices in the fight against weeds and dirt around the house or in the garden: the WeedBrush as an electric or battery version (WeedBrush li-on), as well as the two multifunctional units MultiBrush speedcontrol and MultiBrush li-on with electric or battery operation, which are compatible with up to ten different attachments thanks to their integrated exchange mechanism.

The two MultiBrush units are real all-purpose weapons. Within a short time, they can be converted without tools from a joint brush to a cleaning and maintenance brush for stone and wood surfaces, as well as to an edger, lawn aerator or scarifier. An integrated speed control provides extra flexibility. In this way, surfaces can be powerfully cleaned and treatment oils can be gently applied with the same unit.

An integrated, infinitely variable speed control ensures maximum flexibility when working with the MultiBrush units. In this way, stone surfaces can be powerfully freed from dirt and with the same unit, treatment oils can be gently worked into a wooden floor.

Thanks to an integrated exchange mechanism, the MultiBrush units can be changed from a joint brush to a surface brush for stone and wood cleaning as well as an edger, lawn aerator or scarifier in no time at all.

# SHOW WEEDS AND DIRT THEIR LIMITS!

## THE MULTITALENT

Powered by a powerful electric motor, the **MultiBrush speedcontrol** effortlessly handles a variety of applications with one tool. In addition to treating stone and wood surfaces, it can be used to clean joints, cut edges and maintain lawns. The attachments can be changed without tools at the touch of a button.

## THE POWERFUL BATTERY BRUSH

Being compatible with all BOSCH 18V POWER FOR ALL batteries offers the **MultiBrush li-on** flexibility, and all without electric cables. A running time of 30 – 50 minutes (4.0 Ah battery) as well as a quick charger guarantee continuous work without long interruptions and make cleaning and maintenance work very comfortable.

## THE WEED JOINT BRUSH

Thanks to its powerful torque of 1,800 rpm, the **WeedBrush** is the ideal aid for cleaning joints. In no time at all, the otherwise laborious manual work is done, comfortably and in a back-friendly manner while standing. The weed brush is also available as a flexible battery version and is compatible with all BOSCH 18V POWER FOR ALL batteries.

## INCLUDED IN THE DELIVERY SCOPE OF THE MULTIBRUSH

The **nylon stone brush SOFT**, with its bristles of different lengths, gently cleans the surface down to the smallest gap.

The **brass-coated steel wire brush** cleans joints easily and comfortably from moss, weeds and dirt.

## MULTIBRUSH SPEEDCONTROL

- Up to 10 integrable attachments
- Tool-free accessory change
- Economical electrical operation

- Multifunctional surface brush with electrical operation
- Motor 230 V, power 500 W
- Stone brush SOFT (included in delivery)
- Brass-coated steel wire brush for cleaning joints (included in delivery)
- Integrated speed control (450 – 1,600 rpm)
- Height-adjustable aluminium tube
- Ergonomic guide handle with soft grip

# MULTIFUNCTION NEW DEFINED!

# BRUSHSYSTEM ACCESSORIES

## STONE BRUSH MEDIUM

- For coarse soiling such as moss or green build-up

- Nylon brush ( $\varnothing$  100 mm, width 165 mm)
- Suitable for large and smooth surfaces, not suitable for sealed surfaces
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 728834.0000

## STONE BRUSH PRO

- For stubborn soiling such as lichens

- Brass-coated steel wire brush ( $\varnothing$  100 mm, width 165 mm)
- Not suitable for polished, sanded or sealed natural/artificial stone surfaces
- Suitable for rough/non-sealed surfaces (granite, porphyry, etc.)
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 729010.0000

## WOOD BRUSH UNIVERSAL

- Cleaning and care of wood/WPC surfaces

- Nylon brush with bristles of different lengths ( $\varnothing$  100 mm, width 165 mm)
- For gentle cleaning of the surface as well as grooves, joints and gaps
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 728833.0000

## NYLON JOINT BRUSH

- For the removal of weeds from in between joints scratch-sensitive terrace and walkway slabs

- Nylon brush ( $\varnothing$  110 mm, width 12 mm)
- Suitable for MultiBrush speedcontrol, MultiBrush li-on, WeedBrush and WeedBrush li-on

Item No: 729068.0000

## 2-IN-1 EDGE CUTTER

- Cleaning and maintenance of overgrown paths or curbs from overhanging grass
- Slotted stainless steel disc ( $\varnothing$  150 mm, width 1 mm) cuts into the soil, grabs blades of grass and shortens them
- Nylon brush ( $\varnothing$  100 mm, width 50 mm) cleans the stone edge of moss and dirt
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 728964.0000

## ARTIFICIAL GRASS ROLLER

- Setting up/cleaning artificial grass surfaces

- $\varnothing$  100 mm, width 165 mm
- Spiral design for effective work
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 729210.0000

## LAWN AERATOR

- Removes lawn thatch and moss

- 28 Spring steel tines
- $\varnothing$  100 mm, width 165 mm – work into the smallest corner
- Smooth running and little effort
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 729160.0000

## SCARIFYING ROLLER

- Scores the soil surface, removes lawn thatch and moss

- Ideal for optimised nutrient uptake of the soil
- 8 non-rusting stainless steel knife discs
- $\varnothing$  100 mm, width 165 mm – work into the smallest corner
- Smooth running and little effort
- Suitable for MultiBrush speedcontrol and MultiBrush li-on

Item No: 729161.0000

## EFFECTIVE FOAM CLEANER!

It is best to apply a special cleaning agent with our foam sprayer such as the FoamMaster FM 10 FLEX before using a MultiBrush. Our special sprayer transforms cleaning agents into effective foam that can be optimally distributed over the entire surface. The foam can work intensively and achieve an even more thorough cleaning effect. Cleaning foam is economical to use and ensures a significantly lower use of resources.

- Better cleaning results
- Uses less cleaning agents
- Cost saving

# SPREADING OF CLEANING FOAM

The FoamMaster FM 10 FLEX foam sprayer transforms cleaning agents into effective cleaning foam that can be optimally distributed over the entire surface to be cleaned during spraying. The degree of foaming can be variably adjusted in three stages by means of a plastic nozzle with interchangeable inserts. This way, cleansing foam is created according to your wishes and needs – from liquid to standing firm. Depending on the setting, the foam adheres to the surface for up to five minutes, can work intensively and achieve an even more thorough cleaning effect.

The foam sprayer can be used universally, from cleaning the bathroom to the car to the wooden or stone terrace.

*More on  
page 55*

## HOW IT WORKS

**1** Unscrew foam sprayer

**2** Fill with cleaning agent

**3** Let's go!

### FOAMMASTER FM 10 FLEX

- Turns detergent into effective cleaning foam
- Low consumption of cleaning agents

- Foam sprayer
  - Filling capacity 1.0 l/total volume 1.55 l
  - Recommended filling capacity 0.75 l
  - Suitable for application of media with pH value 5 – 10
  - Maximum operating pressure 3 bar
  - Sturdy plastic container
  - Flat spray nozzle with 80° spray angle
  - Extension lance with flexible joint
  - Foam cartridge set (variable degree of foaming)
  - Transparent container
  - Base ring for secure standing
- Item No: 000656.0000

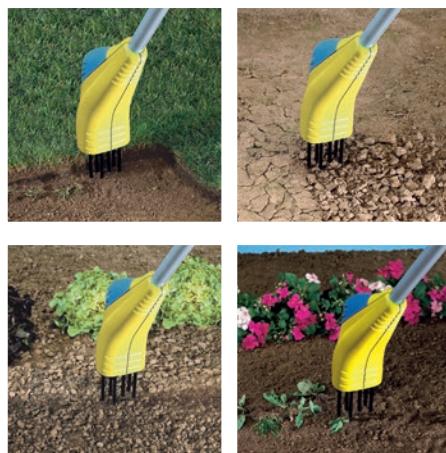

# SOIL TREATMENT

# THE EASY WAY!

With its specially hardened steel tines, the Gardenboy PLUS is the ideal aid for edge care, tilling, crumbling, loosening and weeding. The electric rotary tiller structures the soil perfectly for new sowing and, by regularly loosening the soil, also promotes the development of important micro-organisms in the soil, which results in reduced weed formation.

With a 230 V motor, a power of 400 watts and with a working depth of 8 cm, the Gardenboy PLUS is effective and powerful. It is also comfortable to use thanks to the ergonomic guide handle and its adjustable second handle, which can be individually adapted to body size.

## 1 UNIT 4 USES

**EDGE CARE** Effortlessly removes unwanted lawn overhangs.

**TILLING/BREAKING UP** Compacted soils are broken up without high contact effort and the soil is optimally structured for sowing.

**LOOSENING** Regular loosening promotes the development of important micro-organisms in the soil and reduces weed formation.

**WEEDING** The oscillating movements of the Gardenboy PLUS remove weeds along with their roots, preventing them from growing back quickly.

## THE MULTITALENT FOR PATCHES AND VEGETABLE GARDENS

230 V

### GARDENBOY PLUS

- Multifunctional garden aids
- Economical electrical operation

- Electric rotary tiller
  - Motor 230 V, power 400 W
  - Ergonomic guide handle
  - Adjustable second handle for individual adaptation to body size
  - Cable retention
  - Counter-oscillating tine discs protect plants and roots
  - Working depth 8.0 cm
- Item No: 000220.0000

# WEED CONTROL

# THERMAL WEED CONTROL WITHOUT CHEMICALS

Thermal weed control offers a practical and effective alternative to chemical weed killers to get rid of the annoying weed growth around the house. The use of chemicals is not permitted on paved surfaces such as garage driveways or sidewalks. The Thermoflamm bio series consists of five different weed burners and removes weeds conveniently and effectively. The units can be used flexibly, especially in hard-to-reach places such as outdoor stairs or terraces.

The models **Classic PLUS** and **Comfort PLUS** are equipped with an automatic ignition mechanism for safe handling. The gas-powered units are completed by the **Thermoflamm bio Professional PLUS**, which is used for large areas. The **Thermoflamm bio Electro** removes weeds with a heat jet of up to 650 °C instead of a gas flame. Our fastest way to remove weeds is with the Thermoflamm bio Fix with its 800 °C hot heating coil. A working surface of 150 cm<sup>2</sup> on 4 guide wheels offers fast and comfortable working progress.

**Practical additional benefit:** The Thermoflamm bio units are also ideal for igniting firewood and barbecue charcoal.

Easy locking of the  
gas cartridge

Piezo-ignition:  
The push of a button is enough

**SIMPLE  
OPERATION**

## THERMOFLAMM BIO CLASSIC PLUS

- Weed control by means of gas
- Incl. 1 gas cartridge\*

PIEZO

- Flame torch for weed control
- Lengths of 87 cm
- Handle area with a PLUS in quality
- Piezo-ignition
- Flame temperature of up to 1,000 °C
- Additional use: Ignition of barbecue charcoal/firewood

Item No: 000294.0000

## THERMOFLAMM BIO COMFORT PLUS

- Weed control by means of gas
- Ignition in the handle area
- Incl. 1 gas cartridge\*

PIEZO

- Flame torch for weed control
- Comfortable length from 97 cm
- Handle with a PLUS in ergonomics and quality
- Piezo ignition in the handle area
- Flame temperature of up to 1,000 °C
- Additional use: Ignition of barbecue charcoal/firewood

Item No: 000295.0000

\* The scope of delivery for Austria and Switzerland may differ.

## THERMOFLAMM BIO PROFESSIONAL PLUS

- Weed control by means of gas
- Professional technology for large areas
- For connection to a compressed gas cylinder

- Flame torch for weed control
- Lengths of 94 cm
- Device chrome-plated and corrosion-resistant
- Burner nozzle F60 mm
- Incl. 5.0 m hose
- Flame temperature of up to 1,000 °C
- Additional use: Ignition of barbecue charcoal/firewood

Item No: 000296.0000

### EXTRA ACCESSORIES: PRESSURE REDUCER

- 4 bar, thread 3/8" left
- Flow rate 8 kg/h

Item No: 000182.5000

## DID YOU ALREADY KNOW?

Strict legal regulations apply to the use of plant protection products. On the one hand, these may only be applied if they are approved by legislators. On the other hand, they must not be spread on paved outdoor areas.

This means that the use of chemical or biological agents for weed control without approval – such as vinegar and salt – is prohibited. Violations are punishable by a fine.

The reason: The applied agents cannot seep down through the soil on closed areas. The next rain shower washes the chemical residues from the soil and feeds them unfiltered into the sewage system. Here, they ultimately cause considerable problems for the waterworks in terms of treatment.

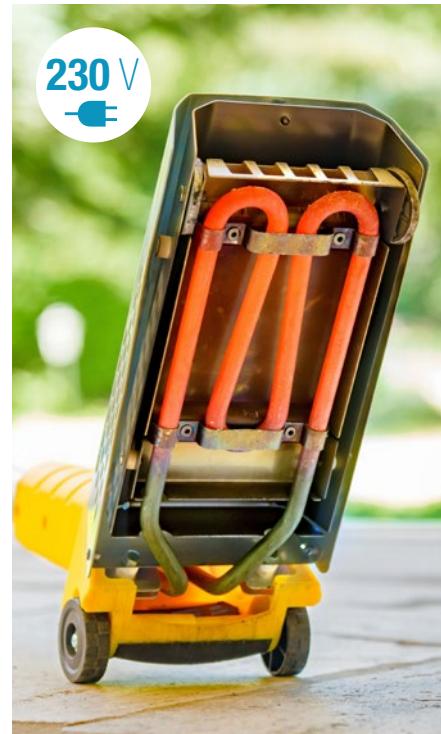

## HOW IT WORKS:

Hold the Thermoflamm bio unit over the weed for a few seconds.

The heat causes the cell fluid to coagulate down to the root system. The expansion of the cell fluid bursts the cell walls.

Within a few days the plant dries up.

### THERMOFLAMM BIO ELECTRIC

- Weed control by means of a 650 °C heat jet
- Electrical operation at the touch of a button
- Comfortable length from 116 cm

- Electric weed burner for weed control
- Motor 230 V, power 2,000 W
- Ergonomic guide handle
- Operation only possible while the button is pressed
- Optimised heat protection to the outside thanks to the cone nozzle
- Integrated stand for cooling down the unit
- Additional use: Ignition of barbecue charcoal/firewood

Item No: 000173.0000

### THERMOFLAMM BIO FIX

- Weed control by means of a 800 °C heat spiral
- 150 cm<sup>2</sup> radiation area
- Device ready for use in the shortest time

- Electric weed burner for weed control
- Supply voltage 230 V, power 1,100 W
- Ergonomic guide handle
- Operation only possible while the button is pressed
- 4 guiding wheels for comfortable guidance of the unit
- Aluminium cover

Item No: 000174.0000

# REPLACEMENT PARTS AND ACCESSORIES

## SPRAY SHIELDS COMPRESSION FITTING AND MUCH MORE

### Spray shield Type 260

- With built-in flat jet nozzle (type 8002 E)
- Dimensions: 100 x 395 mm
- Suitable for all GLORIA high-performance and knapsack sprayers

Item No: 000260.0000

### Spray shield Type 270

- With built-in flat jet nozzle
- Dimensions: 115 x 335 mm
- Suitable for all high performance and knapsack sprayers as well as all 3, 5 and 8 l garden/hobby pressure sprayers from GLORIA.

Item No: 000270.0000

### Spray shield Type 280

- For pressing on the nozzle of the spray tube
- Dimensions: Ø 110 mm
- Suitable for the pressure sprayers of the prima series, hobby exclusiv and primex 5

Item No: 000280.0000

### Compressor connection valve

- Automatic pressure build-up through connection to external compressor
- Long working intervals with uniform spray pattern
- Valve can be rotated
- Suitable for a wide range of the 3 – 8 l GLORIA plastic pressure sprayers

Item No: 728381.0000

### Compression fitting, oil resistant

- Automatic pressure build-up through connection to an external compressor
- Long working intervals with uniform spray pattern
- Incl. Safety and check valve
- Suitable for all high performance sprayers

Item No: 000135.0000

# NOZZLES PUMPS AND MORE

## Hollow cone nozzle

- Adjustable spray angle: 0 – 60°
- Application rate 0.52 l/min at 2 bar
- Suitable for Types 251, 256, 257, 259, 229 TS

Item No: 726029.0000

## Hollow cone nozzles

- Suitable for Types 229 T, 229 S, 228, 229 old, 229 TS, 251, 259, 256, 257, 89, prima 5 as well as prima 5 Comfort

Item No: 706840.0000

## Plastic hollow cone nozzle

- Adjustable spray angle: 0 – 60°
- With brass insert
- Suitable for prima 5 and primex 5

Item No: 726984.0000

## Plastic nozzle

- Spray angle: 110°
- Suitable for Spray&Paint

Item No: 728416.0000

## Brass hollow cone nozzle

- Adjustable spray angle: 0 – 50°
- Suitable for all high-performance and knapsack sprayers

Item No: 000113.0000

## Special flat jet nozzle 111

- Spray angle: 80°
- Suitable for all high-performance and knapsack sprayers

Item No: 000111.0000

## Hollow cone nozzle Ø 1 mm

- With atomiser insert
- Spray angle: 55°
- Application rate 0.49 l/min at 2 bar
- Suitable for all high-performance and knapsack sprayers

Item No: 725830.0000

## Hollow cone nozzle Ø 2 mm

- With atomiser insert
- Spray angle: 80°
- Application rate 1.16 l/min at 2 bar
- Suitable for all high-performance and knapsack sprayers

Item No: 725820.0000

## Hollow cone nozzle set

- 2 x Hollow cone nozzle Ø 1 mm, spray angle: 55°
- 1 x Hollow cone nozzle Ø 2 mm, spray angle: 80°
- With atomiser insert
- Suitable for all high-performance and knapsack sprayers

Item No: 706810.0000

## Plastic pump

- Suitable for all 5 – 8 l plastic sprayers

Item No: 725770.0000

## High-performance pump, oil resistant

- Suitable for all high performance sprayers

Item No: 728058.0000

## Relief valve, oil-resistant

- Suitable for prima series and primex 5

Item No: 727984.0000

## Silicone grease

- Contents 6 ml
- For the care of seals and cuffs

Item No: 728781.0000

# SPRAY LANCES

## Brass extension pipe Type 110

- Length 1.0 m
- Diameter 9 mm
- Suitable for all pressure sprayers, high-performance and knapsack sprayers

Item No: 000110.0000

## Brass extension pipe Type 124

- Length 0.5 m
- Diameter 9 mm
- Suitable for all pressure sprayers, high-performance and knapsack sprayers

Item No: 000124.0000

## Brass spray lance

- With adjustable brass nozzle
- Suitable for prima series and primex 5

Item No: 706610.0000

## Brass spray lance with joint piece

- With adjustable brass nozzle
- Suitable for prima series and primex 5

Item No: 725880.0000

## Brass telescopic extension tube

- Steplessly extendable from 1.0 to 2.0 m
- Suitable for all pressure sprayers with brass quick-acting shut-off valve, high-performance and knapsack sprayers.

Item No: 000132.0000

## Brass telescopic extension tube

- Steplessly extendable from 0.5 to 1.0 m
- Suitable for all pressure sprayers, high-performance and knapsack sprayers

Item No: 000131.0000

## Brass spray lance

- With adjustable plastic nozzle with brass insert
- Suitable for prima 5, prima 5 Comfort and prima 8

Item No: 726898.0000

## Plastic telescopic spray lance

- Steplessly extendible from 0.58 to 1.0 m
- Suitable for prima and primex 5

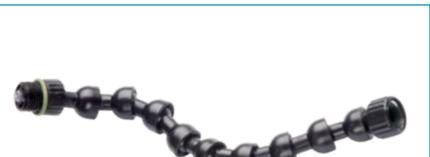

Item No: 000122.0000

## Plastic telescopic spray lance

- With connection hose and valve
- Telescopic in 3 steps from 0.9 – 3.0 m
- Suitable for all high performance sprayers

Item No: 727658.0000

## Flex pipe M11 x 1

- To be used with nozzles 000111.0000, 000113.0000, 726029.0000
- Suitable for prima series, primex 5, all high-performance and knapsack sprayers

Item No: 728396.0000

## BEAUTIFULLY CLEAN!

### FOAM SPRAYER FROM 1.5 – 5 L

The GLORIA foam sprayers transform cleaning agents into effective cleaning foam that can be optimally distributed over the entire stone surface to be cleaned during spraying. The foam can act intensively and achieve an even more thorough cleaning effect. Cleaning foam is economical to use and ensures a significantly lower use of resources.

The degree of foaming can be variably adjusted in three stages on all sprayers by means of a plastic nozzle with interchangeable inserts. This way, cleaning foam is created according to your wishes and needs – from light to standing firm. Depending on the setting, the foam adheres to the surface for up to five minutes, can work intensively and achieve an even more thorough cleaning effect.

Our foam sprayers can be used universally, even vehicle or bicycle cleaning becomes much more effective and easier.

### FOAMMASTER FM10 FLEX

Pressure sprayer with 1 l filling capacity (see page 45)

Item No: 000656.0000

### FOAMMASTER FM30

Pressure sprayer with 3 l filling capacity

Item No: 000658.0000

### FOAMMASTER FM50

Pressure sprayer 5 l filling capacity

Item No: 000660.0000

### TOP FOAM CAR-SHAMPOO

1 l, biodegradable

Item No: 001160.0000
